Some Instructions

- We strongly recommend that all partners participate with their aerosol instruments and OC/EC analysis in the ECAC QA program.
- The TNA funding is limited, please apply for your instruments as early as possible.
- The costs for calibrations and intercomparisons are covered by TNA.
- Shipping and travel cannot be covered by TNA (can also not be paid out of WP3 in order to avoid favoring the ACTRIS partners)
- Stephanie Schüttauf handles all administrative issues – see also her presentation..
